Old Business

1. Social Media Marketing

First post will be about the importance of reporting breedings. Timely reporting will help FHANA with accurate numbers and the members less confusion when it comes time to register their foals.

2. Stallion Fees

With the information we received from Jason and the KFPS and discussion among the committee we decided the extra fee for using a Non-North American stallion did not have the intended effect to support NA stud owners as members are still regularly using non-NA stallions and the NA average kinship is lower than that in the Netherlands. We feel it is not fair to punish breeders who already take the added risk of using frozen semen.

Motion to remove the added fee of \$75 for using non-NA stallions for foal registration by Rachel and seconded by Julee

3. Cooled Semen from the Netherlands to North America

There are legalities involved that require further investigating. Might be very pricey and experimental.

4. Other

White: legal vs illegal
Artificial lighting for mares
Friesians in different weather
